UTPNN GREENTECH PRIVATE LIMITED

SOLAR DIVISION

We build and operate grid-scale Solar power projects in the country, and we supply the generated renewable power to In-house Green Hydrogen plant & government entities. We are committed to lead India's energy transition by providing sustainable energy solutions and achieve net-zero commitments.

WHY US ?

- Team has Years of experience in working & designing of Renewable energy Projects
- We undertake turnkey assignments with output guarantee through latest design features & using latest software's, superior quality equipment & top management inputs during erection & commissioning of Project.

PRODUCTS

SOLAR POWER FOR SALE

SOLAR PLANT EPC

SOLAR PLANTS O&M -AMC

SOLAR PLANTS MATERIAL SUPPLY

Solar Panel assembly, Front glass, PVDF & PVF outer layers, MPPT Inverter/Anti Islanding invertors, Module Mounting Structures

POWER ELECTRONICS WORKS

Selection of technology & Design improvement in MPPT Inverter Technology , Anti Islanding invertors

BALANCE OF SYSTEM (BOS)

IN HOUSE ENGINEERING CAPABILITIES:

Feasibility study, Site Selection, Sizing & selection of Equipments , technical Specifications making, procurement & Installation.
Engineering drawing and 3D isometric RFC drawings for Module Mounting Structures (Civil works) & Plant Layout.

ABOUT US

UTPNN GREENTECH PRIVATE LIMITED is a Engineering company based in Navi Mumbai, India and is into development, design, manufacture, supply and construction of Projects in Emerging & New Technologies .
